

Alternative 2

Reconfigured 19th Street (A)

19th Street/Old Happy Jack Road Intersection

Pros:

- Lowest Cost Standard Intersection
- Intersections can remain as stop controlled
- Intersections meet current design standards
- 19th Street traffic remains 2-way to Snyder Avenue

Cons:

- No flood plain improvements are included as part of this alternative
- Greenway path crosses at grade with 19th Street
- Does not maintain connectivity between 19th Street and Old Happy Jack Road
